

Call for Projects "Valuation and Publication" of LabEx DRIIHM - 2023

Who is this call for proposals for? This call for proposals is intended for all those involved in or responsible for winning research projects in the 2020 and 2022 calls of the DRIIHM LabEx who wish to promote their research or actions within the OHM. Any OHM can also respond to this call for transverse actions (collective works, thematic seminar, etc.).

What can we finance?

- Participation in conferences to present the results of your OHM work (Mission, registration fees...),
- Publication costs (Editing costs, Open Science costs, APC (Articles Processing Charges) paid in the framework of the project),
- Translation costs,
- Publishing costs of scientific books,
- Organization of thematic scientific or popularization colloquiums,
- Mediation actions towards the civil society, institutions, actors of the territory.

This questionnaire allows you to submit an application for funding (or co-financing) the valuation of the research carried out within the framework of one or more OHM.

The evaluation of applications will be done at two levels:

- an initial evaluation by the management committee of each OHM, which will rank the applications
- followed by an evaluation/validation by the LabEx DRIIHM steering committee

Planning

Launch of the call for projects: April 3th, 2023

Deadline for submission of applications: May 15, 2023 (midnight Paris time)
